Senator Kellogg on Anderson's Statement

Des Moines, Iowa, Oct. 27—Senator Kellogg passed through the city to-day coming from Omaha, where he has business interests. A reporter of the *State Register* interviewed him and called his attention to the interview published in the Indianapolis *Herald* as coming from James E. Anderson. The senator replied and said: "I was quite amused when I read over the dispatches and saw that I had known what hole Anderson would get out of next, and although we expected some such circumstances make it a surprise and a little of a man in his cups talking at random. There is nothing in what he may have said, nor in anything else in the dispatch except perhaps what he relates as having occurred between himself and Sypher. Sypher was his counsel, and I understood that they have had a falling out and may be disclosing some of the things which passed between him and Sypher. An old man has a great character and would not make a false statement unless he had been drinking. I have not seen him for a couple of years, leaving Washington. He said he was going to visit relations in Indiana.

A Fatal Duel.

Yuma, Nov. Dec. 27—Jacob Daemon, proprietor of the St. James Hotel died last night from the effects of two revolver shots at the hands of Ed. Kressmann. The two men had an interview that on Thursday night, during which two shots. Kressmann escaping unhurt. The difficulty arose from a charge that Kressmann had been too intimate with Daemon's wife.

The Plague Over.

Memphis, Oct. 28—Ice and black frost yesterday. The Howard association are now closing their affairs. A number of visiting physicians and nurses will return to their homes to-morrow.

The mortality for Memphis, Oct. 28—Weather clear and cool. Deaths, 23, cases reported, 21.

Vicksburg, Oct. 28—Last night was the cold est of the season. A heavy frost fell and ice formed in the pattens throughout the city. The health officer will to-morrow officially announce safety to refugees returning to the city, recommend all dwellings be thoroughly ventilated before occupation. From midnight last night to noon to day, six orders of interments were reported by undertakers as having occurred deaths both in the city and country.

Southern Political Troubles.

Austin Tex, Oct. 28—The *Tribune* review of the press from the south says the persecution of Republicans continues in South Carolina. Two Republican leaders have been thrown in jail to keep them from holding meetings. A meeting a Louisiana was broken up by an armed mob, and in one of the counties of Texas the Democrats will not permit any political activity whatever on the part of their opponents. The state of things in South Carolina as described by an old citizen shows that state as well as others will be carried at the coming election by any power.

Probable Fatal Affray.

Virginia City, Nev. Oct. 28—A shooting affray occurred on Friday at Flagg mine between Wm. A. Bradford State Senator George B. Kent. The latter received a flesh wound in the arm and the latter a serious wound in the side and is now in a critical condition, if not killed.

Insolvency of a New York City Bank.

New York, Oct. 27.—Between 6 and 9 this morning masked burglars entered the Manhattan Savings Bank building on the corner of Broadway and Bleecker street, after handcuffing the janitor under threats of instant death, effected the demolition of the safe to them and possession of the keys of the bank. They rifled the safe of a presumably large amount of money, the boxes known to have valuables were found on the floor and the doors, windows and all means of egress without were found intact. It is evident that the thieves had entered by means of keys. Dan Keeley, night watchman, said he left his post at 6 o'clock and aroused the janitor, as was his custom, and left the building, locking the door after him. The janitor (Wertel) made an unfavorable impression on cross examination. He said that at 10 minutes after 6 while he was dressing seven masked men rushed into his room and handcuffed him and his wife and demanded the keys of the bank. His mother in law, an old lady who was present, screamed when the robbers drew a pistol and threatened instant death to anyone who made a noise. They then turned him into an adjoining room and told him to deliver up the keys of the street door. With these four of the party went out, leaving three on guard in his room. Three hours passed and Wertel heard the clock strike 9. Just then one of the men in the room returned, and after a whispered consultation, they all left.

Immense Stolen—No Clue to the Robbers.

New York, Oct. 28.—The gigantic robbery of the Manhattan savings institution is the theme in banking circles. Notice has been given in the bank, saying "For purposes of examining loss to depositors it is ordered that no payments be made without sixty days notice. The surplus of the bank is ample sufficient to cover any probable loss that may be sustained by reason of the robbery." A great number of depositors have called at the bank to-day in accordance with the necessary notice. The directors will meet again to-day. It is said to be the opinion of bank buildings in this city to have the combination of vaults and the most reliable detective in town has been put on the case. So far as can be ascertained, no arrests have been made yet. Superintendent Walling said this morning that he had no further information about the robbery than he had yesterday. It is denied that he professed last night to have any clue to the robbers and if he had any he would not admit it. The janitor and night watchman are at the bank to-day helping to straighten out matters. Augustus Schell says the bank will have a surplus of $2,000,000 if all the coupon bonds stolen are returned at last. Great crowds continue to gather all the morning about the bank. The janitor sat behind a skeleton key and also two pairs of handcuffs. Of forty or fifty vaults standing open about twenty had been robbed and their contents rifled. It is possible that the amount taken may be more than $1,000,000, since the contents of a number of the boxes containing gold coin and valuable papers, with which the sides of the vaults were lined, have disappeared.

Subscription Started for Lieut. Benner's Family.

New York, Oct. 28—The southern relief committee of the Chamber of Commerce set on foot a fund of $5,000 to be held in trust for the widow and orphans of Lieut. Benner and to appeal to the public. "It seems to us that this widow and her orphan children should be the wards of the people. The sum we have started has been deposited with the Union Trust Company of this city, and it is hoped that further sums may be added to it. Large sums shall be gathered and in the form of $1 per cent bonds which shall be held as a fund for the future support of this family and the education of her children. We respectfully suggest to other relief committees in many still have unappropriated funds, and to individuals who may be in receipt of this appeal, to send to the secretary of the committee whatever to them may seem proper, which will be duly acknowledged in the daily papers."

The Wreck of the "Barnes."

Boston, Oct. 26—The smack *Hippocampus* arrived last night, bringing Capt. Cheeseman and the officers and crew of the lost schooner Gen. Barnes. Capt. Cheeseman states that they encountered a hurricane on the night of Wednesday morning, which broke to pieces from the fore hatch to the stern and on Wednesday morning, when the officers and crew took to the boats, and soon afterwards sighted the schooner *W B Dow* Capt Mahoney who took the shipwrecked crew on board and brought them to Charleston bar. The *Barnes* went down at noon on Wednesday. Her cargo consisted of 630 bales of cotton 700 barrels oil, 70 casks spirits of turpentine 400 barrels rosin 8 barrels waste and other merchandise.

The Bowie Stakes.

BALTIMORE Oct 2—The Bowie stakes four mile heats was won by Bushwhacker taking the first and third heats. Princeton winning the second heat. Time, 7 31, 7 30, 8 29. Duke Sasseer quit on the fourth mile in the first heat and was distanced and in the second the pace put Gen Phillips and Carrick out of the race.

The Worst he Ever saw

NEW ORLEANS Oct 26—Dr Quijano who was sent to the Howards by the Spanish government to be sent to the place where the fever was most malignant, has returned from Dry Grove Miss. He has been 25 years in charge of a hospital in Havana but says he never saw anything such as such yellow fever.

THE CASCADE CANAL.

The following is from the *Inland Empire*:

On Monday last the engineer in charge of this interesting work, began operations at the Upper Cascades. The contractors are Black & Bibb of New York who were the lowest of ten bidders. Their bid is $281,000 in currency, and the most competent judges say they will lose at least forty thousand dollars on the contract. Hans Thielsch, of Portland, who built 167 miles of the O R & N railroad, for Ben Holladay is as good a judge of the cost of moving materials, and can figure as close to the bedrock as any man on the North Pacific coast. There were four lower bidders than he and he only calculated to clear $6000 on the contract if he got it which is no very great pay for what is certain to be at least a two years' job. The rates at that point are almost incessant and the danger of land slides is imminent at all times. This work is of the utmost importance to the people of Eastern Oregon and will throw the profits of agriculture to the producer by the reduction of freights as soon as it is once completed. At the same time it will be the best thing that ever happened for the O S N Company for it will enable them to dispense with their portage road at the Cascades and run their big boats directly through to Portland without refreighting. Hence they will be none the worse off by the change while the producers will be directly benefitted by it.

TROUBLE ABOUT THE FISHERIES

The Washington Treaty Will Afford—American Fishermen Driven off by a Mob—Diplomatic Correspondence on the Affair

NEW YORK Oct —The Herald London letter says Lord Salisbury British foreign minister has been invited by the American government to consider seriously the very decided objections which the American government is disposed to raise to the payment of the Halifax fisheries award in the new circumstances created for both governments by recent report of Capt Sullivan of the British ship S— who was sent to investigate the events of June when a number of American fishermen were driven away from their stations on the Newfoundland coast their fishing tackle destroyed and the business broken up. Capt Sullivan reported to his government that the people of Newfoundland were justified in making the assault upon fishermen because by the local law of that island mackerel fishing on Sunday is prohibited and the Americans were fishing in contempt of this law. The marquis of Salisbury has endorsed and accepted the report of Capt Sullivan as embodying the views and conclusions of her majesty's government. The marquis of Salisbury forwarded communications to the American government without taking the trouble to fortify it by laying before the U S government the report of Capt Sullivan upon the facts in the case as they were set forth upon the spot to him. It is said that the American government has informed Salisbury that the question is to whether the American fishermen pursuing their business under the terms of a solemn treaty are liable to violence at the hands of petty local authorities.

NEW YORK Oct 28—The Herald's Washington special says that serious correspondence between England and America on fishing rights and modification of the fishing clauses of the Washington treaty by Newfoundlanders is confirmed by the most authority. One of the features which was secured by the treaty of Washington and which it was important to secure was what is generally known as the free herring industry that is confining or purchasing chiefly to Newfoundland herring which are there frozen and kept for bait. Hitherto to save time our fishermen have generally purchased their herring from the colonial fishermen, but with the privilege of fishing within three miles limit they are gradually catching for themselves. They go from Gloucester about November and occupy several months in their business. Last November a Gloucester fleet of about twenty sail went as usual to Fortune bay in Newfoundland but were driven from the fishing grounds by a very violent assault from a large and excited crowd of colonial fishermen who cut and destroyed some of their seines and drove off the fleet. The crews being unwilling to run the risk of a disturbance. Representations were duly forwarded to our minister in London. The English government instituted an inquiry and recently Lord Salisbury communicated to the United States a report from Capt. Sullivan of the *Cr—* to whom the investigation was committed. In communicating that report to the British secretary of foreign affairs used language which seemed very distinctly to accept the conclusions of the report which was in substance that the Americans had no ground for complaint, as they were violating three local laws of Newfoundland. First in fishing on Sunday. Second in fishing between October and May and third in using rings in their fishing. The alleged violence was disproved and the report was based upon what was said to be competent testimony, but none of which was transmitted either to the British government or to the United States in the communication from that government. Immediately upon receipt of the dispatch from London our minister there was instructed by Evarts to say that such conclusions of fact could not be received as conclusive against the sworn statement of our citizens until the British government had submitted the testimony upon which their officer relied to the consideration of the United States and that even if such conditions of facts presented itself or justified the charge of violation of law on the part of Americans still there was great difference between the regular and judicial vindication of the law and such rough and riotous method of its execution by a mob of exasperated fishermen. But waiving the conclusions of points until facts had been properly ascertained, he was further instructed to say with earnest distinctness that the United States government could not accept for a moment the conclusion which the language of Lord Salisbury would seem to indicate as the opinion of his government—that the right of fishing secured American fishermen within the 3 mile limit was subject in its exercise to such limitations as the colonial government might see fit to impose. Every particular in which these laws were said to be violated were vigilantly such as would seriously affect the value of the liberties. The months excluded were the very months when alone they wanted the privilege and the prohibition of the use of seines was equivalent to a total prohibition of fishing on shore fisheries of which it was the object of local laws to encourage and develop. It is quite a different thing from vessel fishing and what was in dispute in regulation prior to was totally impossible to fish except under, exclusive of the other such limits imposed upon the treaty right was unusual and not to be justified by views of its own interest by one of the parties to the treaty. It was no part of the treaty itself and could not be in equitable by any construction and however much it might be delay the settlement of such questions touching the recent award as were under discussion between the two governments the United States must ask for a distinct disavowal of the construction which left it very doubtful what advantages if any were secured by the treaty.

The *Herald's* Montreal special says: If the American government should refuse to settle the Halifax award the Canadian government will be put into an awkward position and if the responsibility of this is thrown upon New England there will be trouble perhaps of a serious character with the maritime province. The matter is engaging the attention of sir John Macdonald.

SOUTH AMERICA

Peruvian Finances

NEW YORK Oct 27—The *Commercial* arrived to day from Panama the 17th bringing the following: In form a proposition is before congress to issue a national note which shall take the place of bank notes which are now in circulation. The government made it responsible for a portion of the issue of the banks which it is now proposed to retire, substituting national notes and making provision for their redemption in coin from time to time. The arrangement will probably be carried out and should have a beneficial effect.

Political

A new election law has been carried through chiefly by the civil party to prevent fraud to force or intimidating at elections. The experience of that party during the last election in Lima was unfavorable, as the government party took possession of the polling places and placed both the civilians and policeman under a ban refusing to allow them to vote and treating them with marked injustice not unaccompanied by violence. No arrangements have yet been arrived at between the government and rival interests represented by the houses of Raphael & Sons and Leyseaut & Co and the foreign debt consequently remains unprovided for either as regards payment of interest or its amortization. The contract entered into between the government and the bank for dividends is not satisfactory to either holders or foreigners.

Mass was sung by the first artists of the operatic company and other institutions of Lima.

A committee has been appointed by congress to examine the whole nitrate question and have reported unanimously against confirming that contract and recommend that the industry be left entirely free from governmental interference except so far as the collection of a reasonable export duty is concerned.

A New Railroad.

A railroad is proposed to connect Lima with the southerly part of Peru. It will pass through the great sugar growing district of Canete and the fertile valleys of Lurin Asia and others, and will be of immense advantage to the country. Many bids for the construction of the road have been presented to the government but it is probable that the contract will be given to the Lima Callao & Chorillos railway company.

Mass Celebrated for the Soul of Henry Meiggs.

September 30th, the anniversary of his death, solemn requiem mass for the repose of the soul of the late Henry Meiggs was sung in the church of Merced in Lima. The dignitaries of the city and state governments were present and a multitude of people.

EASTERN LABOR AND WESTERN LANDS

Though the territory of the United States is capable of sustaining a population of two hundred millions yet because of the present very unequal distribution of inhabitants our existing population of less than fifty millions is in some localities so densely crowded that the question what to do with the surplus is becoming more and more a leading social and political problem of the time Observing and thoughtful people in our eastern states look with concern upon the vast growth of the wretched hosts of professional paupers and tramps and find constantly increasing demands upon their charity A Chicago paper—and Chicago is comparatively no great distance from the still unsettled west—says that even the streets of that city swarm with able bodied men who are persistent in their demands for work though the fact must be evident to them that there is no call for their labor The same is also witnessed in San Francisco a city which is but a few days journey from free lands which offer a livelihood to all who have industry to till them Men and women swarm into the cities from rural parts and outside villages, with a vague sort of an impression that it is somebody's duty to provide them with the employment and wages that shall keep them from starving One year follows another, and poverty pinches continually yet they remain in their haunts without the pioneer spirit to stir about and find or make labor for themselves Apparently, they forget that if there was employment to be had it would not only be gladly furnished them, but a means would be found of compelling them to earn their livelihood rather than eat the bread of charity All thoughtful men know that almsgiving is demoralizing and they would be glad to end it But they can do little in this respect themselves so long as the mass of the unemployed are content to hang about the streets of cities that are already provided with more than their quota of skilled labor

But the truth is there is work for all who really desire it and have the spirit to seek it To say otherwise is to offer excuse for imbecility and idleness Large numbers do make their way toward the free and open west Every year many thousands of foreigners land at our eastern ports who push out at once toward the free domain An enterprising element of the native population still do likewise But the vast multitude sit down listless and hopeless They have not the disposition to turn their steps in a direction where any foothold may be made a road to a fair competence And yet there are few, in fact, who would find successful effort in this direction beyond the power of even a moderate energy While it is true no doubt, that the east has not bread for all the mouths that ask it, it is even more true that the west not only offers a livelihood to every strong man, but pledges prosperity to all who have grit and perseverance In a short time the hut in the wilderness becomes the abode of cultured prosperity. The great west is only at the threshold of its future If the men who are daily going down into the ranks of pauperism had pluck and persistence nine-tenths of them could establish themselves within a few years in comparative independence

RECENT LEGISLATION

The act passed by our legislature relating to board of canal commissioners amends the former act, providing as follows The legislature shall biennially elect a canal commissioner who with the governor and secretary of state, shal constitute said board keep minutes of proceedings register all water craft passing the locks and keep an account of freight and passengers transported through the same In case of vacancy the governor shall appoint such commissioner, whose salary shall not exceed one thousand dollars a year The prosecuting attorney of the proper district is required to conduct legal proceedings that may arise, in the interest of the state

The appropriation for the state capitol building, amounting to $25,750 from the soldiers' bounty and relief fund, and $3,250 from the capitol building fund, in all $29,000, is to be expended under direction of the governor and secretary of state who are also authorized to employ a janitor for the building at a cost not exceeding $900 a year

An act was passed providing that if the United States pay the state of Oregon the expenses of the Modoc Indian war the treasurer of state shall use such money to pay outstanding Modoc war bonds, by advertising within ten days for sealed bids for redemption thereof the bids to be opened by the state board and awards made to the lowest bidder, if bids are not above the face value of the bonds. It is not probable that the treasurer will have a great deal of money to disburse in this way at least for some years to come

An act relating to property of married women provides that property owned by a woman at the time of marriage or acquired thereafter by gift, devise or inheritance shall not be subject to debts or contracts of the husband and the wife may manage sell convey and devise the same as the husband can his property The property of either husband or wife shall not be liable for debts or contracts of the other Action may be maintained by husband or wife against the other for recovery of property of which the other has obtained possession, the same as if they were unmarried For civil injuries committed by the wife damages can be recovered of her alone, except in cases where he is jointly responsible Conveyances or liens from one to the other shall be valid One may constitute the other his or her attorney to act for mutual benefit or attorney in fact The wife may recover the wages of her personal labor in her own name and exercise all rights at law in her own name Neither is liable for debts of the other incurred before marriage Expenses of family and education of children shall be chargeable upon property of both husband and wife or of either of them We have here an act which seems to be pretty well up to the advanced claims of those who have been laboring for a law which would give to every man control of her own property [illegible] in this respect with man

When Old Shep of the Baker *Democrat* refused to support the candidate of his party for state printer last June and candidate printed several rough things about Shep which the latter now resents with compound interest Since the exposure of the printing frauds Shep considers himself fully vindicated and says that if the Democratic party is composed of material like that he is "only too willing to part company with it But he expects to see certain individuals thrust outside of the party ranks, or swing from the party gibbet, while he goes on his way rejoicing with a party which casts off those who have been found wanting We are not exactly repeating the language it is a little too rugged and choleric for our columns It is enough to say that old Shep punctures with pungency He's day has returned

EUGENE A CRONIN.

The New York *World*, of the 14th inst publishes the following obituary of the late E A. Cronin 'Eugene Augustus Cronin whose death was announced from Oregon yesterday was a native of Greenwich Washington Co New York, where his ancestors settled with a large Scotch-Irish colony nearly seventy years ago He was born in 1842, studied at Salem Washington academy and adopted the law as a profession, receiving high praise for his successful examination and law scholarship from Judge John K Porter, the examiner He volunteered at the breaking out of the war, but was mustered out with the Salem company on the one year call for men by President Lincoln. He followed his townsman, ex-Senator Corbett, of Oregon, to the Pacific coast, and settling at Portland in 1864 soon acquired a high reputation as a speaker and lawyer He was in politics a war democrat. At the presidential election in 1876 Mr Cronin was one of the democratic candidates for the electoral college, and was given an elector's credentials by Governor Grover when the ineligibility of one of the republican electors was discovered Mr Cronin was a brother of T C Cronin, the lawyer, of this city, and late republican candidate for presidential elector in the third congressional district (Kings county), and of Mayor David E Cronin the founder of the Bingham ton *Daily Times*'

CALIFORNIA SILK

Manufacturing Company,

ROBERT R. YATES, Agent,

383 Market st., cor. Second, San Francisco.

MESSRS WM. MACDONALD & CO having retired from the Sales Agency of this Company the business will hereafter be conducted in the name of the CALIFORNIA SILK MANUFACTURING COMPANY on the same premises as abovenamed Mr ROBERT R YATES late with Messrs Murphy Grant & Co will act as Agent

New Machinery has been added to our factory and our stock on sale has been and will be very much enlarged

Our Standard Goods are now ranked fully equal to the best goods made in the United States and are far superior to the average imported We also make the cheaper grades to meet the demand for such goods,

Having a factory at South San Francisco always at work and unlimited facilities we are able to keep our stock in store always fully assorted and can furnish any silk required at short notice from stock or made to order This gives us great advantage over importers in supplying customers with any desired color or kind of Silk in the line of Machine Twists, Embroidery, Fringes, Tram and Sewing Silks Dealers buying of us need to carry but small stocks thus saving interest and shop wear on goods

We absolutely Guarantee our Standard Goods to be equal to the best and most celebrated silks made and the general favor with which they are now regarded by consumers and dealers selling as we do to nearly the entire trade proves our assertion to be true and should any goods be found not as guaranteed, we will willingly take them back.

Attention is drawn to the fact that besides our regular standard goods, we have made to meet a demand for cheap grades a second-quality which sometimes mistaken for the former We shall in future use different brands for the lower qualities though some time may elapse before a complete change of names can be made Lists of our products with prices can be obtained by mail

Our manufacturing business has been built up with much labor and sacrifice during the last seven years and after overcoming great vicissitudes has achieved complete success as a California Industry

Employing as we do nearly One Hundred American and European Women and Girls,

Giving the best of silks made at the lowest prices for corresponding grades and offering better than elsewhere in stock a variety for selection than any other Silk Agency we feel that we are entitled to the patronage and preference of all who desire to AID HOME INDUSTRY

TUESDAY MORNING, OCT. 29, 1878.

CITY.

MISS AUGUSTA L. DARGON.—This eminent artist is a passenger on the steamer *Idaho*, and will probably arrive here this evening. Miss Dargon comes under engagement to Mr. John Maguire for a short season. She will appear at New Market theatre next Monday evening, in one of her greatest characters "Deborah," or "Leah, the Forsaken." Miss Dargon comes to us with a well earned reputation as an artist of more than ordinary merit. The lady has for some years played very successful leading engagements in all the leading cities of the east. From both press and public she is the recipient of the highest encomiums. As a' *tragedienne* Miss Dargon is acknowledged to have but few superiors on the English speaking stage Not only as an exponent of tragedy is Miss Dargon accorded a prominent position in the first rank of the profession, but she shines with equal excellence in comedy. In the eastern states where she is esteemed as much for her great genius as for the nobility of her womanhood and the purity of her character, Miss Dargon is among the most favored of her profession. Some idea may be formed of her versatility from the wide range of characters she personates with such success. She plays "Deborah," "Lady Isabel," in "East Lynne," "Queen Mary," "Meg Merriles" in "Guy Mannering," "Queen Katherine" in "Henry VIII," "Lady Gay Spanker" in "London Assurance," "Camille," "Lady Macbeth," "Lady Teazle," in "School for Scandal and other characters. Miss Dargon has just recovered from a protracted illness in San Francisco. Lovers of the drama can congratulate themselves on the treat which is in store for them.

PEEKING THE WORK.—Says the *Telegram*: "The contractors, Messrs. McCullough & Martin, for the construction of the foundation of the new brick building to be constructed by Messrs. Coulter & Church, at the corner of Morrison and Front streets, are pushing forward with the work. A large force of stone cutters are engaged in building the foundation wall next to the street. This will be from fifteen to 18 feet high, and will be built to a level with the sidewalk. At the base the wall will be four feet thick and taper up gradually, being one foot thick at the top. The foundation wall next to the river has been partially completed, and the work has been sufficiently advanced to be beyond the reach of high water. All the space between the middle walls is being filled up solidly with earth. When finished there will be no more solid and substantial foundation in Portland. We understand that Messrs. Coulter & Church will erect a three story building."

DUST TO DUST.—The remains of Edward H. Rigney, late member of California Commandery No. 1, Knights Templar, San Francisco, were followed to Lone Fir Cemetery on Sunday afternoon by the members of the several Masonic Lodges of this city. The funeral services were conducted by the members of Oregon Commandery No. 1 in a very impressive manner. From facts and circumstances not known at the coroner's inquest, and have since come to light, we have been requested to state that the death of Mr. Rigney was not a case of suicide but accidental poisoning.

PHOTOGRAPHS.—Mr. John Van Beurden brought with him from Paris a number of large sized photographs of the principal objects in and around the exposition, as well as a number of views of the principal objects of interest to be found in the magnificent city of Paris. When these photographs are placed in a large magnifying glass which he purchased there, they form a clear and distinct panorama of the remarkable and interesting objects shown.

TARGET SHOOTING.—The annual target shooting and ball which was to be given by the Washington Guard five weeks ago will take on Thursday, Nov. 7. The Washington Guard Band, Prof. Charles Bray leader, will furnish music for the evening. The committee of arrangements will do all they can to make it sociable and pleasant for all those who attend.

FINE BILLIARD TABLE.—The billiard table made of Oregon wood and manufactured by C. Louis Kuhn for the Mechanics' Fair, is so extremely beautiful that most people are under the impression that it could only be the production of the world renowned Brunswick, Balke & Co. Portland has reasons to feel proud of such skillful mechanics.

ON THE WAY.—As will be seen by reference to the passenger list of the steamer *Idaho*, Officer Hudson is on board. This officer was sent by Chief Besser to Los Angeles some days ago to bring James Johnson to this place. Hudson and his prisoner will probably arrive here this evening.

NEW SCENES.—Mr. W. T. Porter, the scenic artist of New Market theater, has recently painted a number of scenes which prove his skill in that line of business and aid greatly in the proper mounting of plays.

AMUSEMENTS.

"MUCH ADO ABOUT NOTHING."—Shakespeare's beautiful drama of "Much Ado About Nothing" was rendered at New Market theater last evening. Mrs Scott Siddons personated the character of "Beatrice." Of her rendition of this character it can with truth be said that none of the traditions or mannerisms of the stage hampered or embarrassed her action, and the result was an eminently truthful, natural portrayal of human character. Owing to the non-arrival of some necessary wardrobe, Mrs. Siddons was forced to hastily improvise her costume so as to make a present appearance. The lady evinced no small amount of skill and cultivated taste in making the required changes. Her costume, notwithstanding it was deficient in some respects and failed to meet the historical requirements of the character-yet it was very rich and showy, and the lady looked perfectly superb. Her acting of the rollicking and fascinating "Beatrice," was charming. The support in some respects was faulty and not as strong as it should have been. Miss Flora Lee Kenkade as her first appearance last evening as "Hero." She is a pleasant little actress and succeeded in making a very favorable impression. The entire play ran as smoothly as could reasonably be expected on the first presentation and gave satisfaction to the audience.

To-night "Much Ado About Nothing" will be repeated for the last time. To-morrow evening "Colleen Bawn," with a powerful cast. On Thursday evening Mrs. Siddons will take a farewell benefit, on which occasion a very attractive bill will be presented.

CONFLAGRATION.

DESTRUCTIVE FIRE AT THE DALLES—FIVE BUILDINGS DESTROYED—NARROW ESCAPE FROM A GENERAL BLAZE—DEATH OF MR. H. J. WALDRON.

[SPECIAL DISPATCH TO THE OREGONIAN.]

THE DALLES, Oct. 28.

A big fire occurred here last night. Five business houses and dwellings were burned. Dalles water works had the water cut off all day yesterday until 11:30 at night. The fire is supposed to have caught in Corum's saddle and harness shop, which was wholly consumed. It burnt also D. Ehrich's harness shop, the grocery store of Comfort & Hall, the book shop of Sanders & Sons, the warehouse of French & Co., and the dwelling of E. Wingate, also Wingate's store. A portion of Wingate's stock had previously been moved into his store which alongside of his old store. Part of the stock of Frank's harness shop was also saved, and a portion of the stock of Comfort & Hall, grocers. Had it not been for Wingate's brick, and the fact that there was no wind whatever, the whole lower end of the city would have been destroyed. One of our most excellent citizens, H. J. Waldron, died from overwork.

BRIEF NOTES.

Only a fair hour last night, only two or three "drunks" had been run in by the police.

The sense of the big fire alarm bell striking several times yesterday, was that some repairs were being made to the wire.

BUSINESS NOTICES.

Prof. D. Kalpreuner will open his dancing school for the season with a soiree at his hall on First street, between Yamhill and Morrison streets, on next Saturday evening.

FIFTY DOLLARS REWARD.

I will pay the above reward for the conviction of any party or parties who may sell dried fruits purporting to be dried by the Plummer Process that are not so dried. It is the duty of every merchant and citizen to see to it that dried fruits are kept up to the proper standard. It is well known that fruits properly cured by my process have no equal in the world, and I propose to protect them against all bogus dried fruits.

W. S. PLUMMER.

Try Perinot's kid gloves; Fishel & Roberts are the agents.

THE TURF.

AN EXCITING TROTTING MATCH ON THE RIVERSIDE TRACK.

Behind the gallant little sorrel of Emigrant extraction, belonging to H. C. Leonard, Esq., we were carried rapidly to the White House yesterday on the macadamized road, which is in excellent condition and affords a really pleasant drive. Arriving at the Riverside track we found quite a large attendance of the citizens of Portland to witness the trials of speed announced to take place at 2 in the afternoon. Some disappointment was felt, in which we shared, that the match between Nellie Patchen and Parrott had been given up, but sufficient to amuse the crowd until dark was furnished by the contest between Lumox, Mystery, Pedro and Belle. The match was a sweepstakes trot for $200, best 3 in 5, mile heats. Pools at the start sold near even on Mystery and Lumox, with perhaps 10 per cent. in favor of the former, Pedro and Belle selling in the field for about one-third of either of the others. Messrs. Dimmick, J. P. Ladd and H. C. Leonard acted as judges, and H. Boyd as timer. The horses all came to the track looking well, but Mystery evidently carrying too much flesh to do his work creditably to himself and satisfactory to his backers. On drawing for positions Mystery got the pole, Pedro second and Lumox outside.

The first heat the horses were sent off to a good start, Lumox and Pedro taking the lead contesting the heat very hotly, Mystery and Belle some distance behind. Both the foremost horses broke badly on this heat, but while Lumox lost nothing by his break Pedro fell back very badly every time he went off his feet. This breaking gave Lumox the heat by about a length, Pedro second, Mystery third.

The second heat was much like the first, Mystery and Belle bringing up the rear very badly, while the strife between Lumox and Pedro was as energetic as ever, coming under the wire in 2:54, Lumox leading by a length and a half, Pedro second, Mystery a bad third and Belle distanced. Now pools sold four or five on Lumox to one on Mystery and two on Pedro, and the "boys" who had bought on Mystery thought it a mystery that he was so far behind. On being called for the third heat, Belle's driver declined to withdraw his animal from the track, on the ground that no distance judges being appointed he could not be ruled out, but after some persuasion by the proprietor of the track, the mare was drawn off and the remaining three came to the scratch and got a good send off. Now Mystery began to foot it at an improved gait and the affair narrowed down to a match between him and Lumox. Both broke badly, but neither gained nor lost much advantage by it. Pedro, who can trot beautifully and honestly, did it on this heat, but he made an apparent bad third, while the other two came under the wire neck and neck, but both off their feet. A dead heat.

The fourth heat was a close contest between Mystery and Lumox, the former winning in 2:53, Lumox second, Pedro third, and the pool box showed a great revolution. Prices went up, and Mystery was the favorite, 2 to 1.

The fifth heat finished the revolution in the pool box and set the Mystery men to cheering tremendously. The horses got a fair send-off, and again the strife was between Lumox and Mystery, the latter winning by a half length, leaving Pedro a bad third and letting him out of the race, he not winning a heat in five.

The fifth heat, the most exciting of the race, was a difficult one to start, and three times three scores were made before the final start, each driver apparently fearing the other would get some advantage. The start at last, however, was a fair one, and the horses both evidently went for what was in sight. Mystery's breaks, however, left him to the mercy of his opponent, and he lost heavily by them, while Lumox, with a gait somewhat indicated by his name came under the wire a full length ahead, thus winning the heat and race. The following is the summary:

Riverside track, Oct. 28, 1878; trotting 3 in 5, sweepstakes $200.

James Misner names br. h. Lumox 1-1-2-2-2-1.
B. B. Acker names s. h. Mystery, 3-2-3-1-1-2.
L. B. Lindsey names bl. h. Pedro, 2-2-3-3-3, dr.
J. N. Smith names gr. m. Belle, 4-4ds.
Dead heat.

The horses were driven by the parties named as entering them in the race.

MECHANICS' FAIR.

LAST NIGHT BUT ONE—ANOTHER LARGE AND BRILLIANT AUDIENCE—ADDITIONS TO THE EXHIBITION —ONE MORE CHANCE FOR THE PEOPLE TO WITNESS THE FAIR—A MUSICAL PROGRAMME EQUAL TO A FIRST CLASS CONCERT THIS EVENING.

We have seldom seen a finer assemblage in Portland than was present at Mechanics' Fair last evening. The new arrangement of the articles on exhibition in the galleries gave a much better opportunity for viewing them than was enjoyed before, and added an attractive beauty to that part of the hall. Some few articles had also been added since Saturday evening, which attracted considerable attention from visitors. Among those not before mentioned we noticed especially the model of a plow which took the premium at the Centennial Exhibition and which is something new in this country. It is made at the factory of Alex. Speer & Son, in some of the eastern cities, Boston we believe, and is adapted to work on hillside or level land. It has also the advantage that it has not to be lifted out of the ground at all but the beam and handles turn on a pivot or perpendicular axis. One must see this ingenious implement to get a correct idea of its working. Newbury & Chapman have it on exhibition. We also notice the electric pen, and a stencil writer or printing machine, invented by Mr. Jenson of this city, a curious invention, and when perfected may be made of great utility.

The magnificent oil painting belonging to Hon. D. P. Thompson, a splendid picture of Mt. Hood by Buttman, and some landscapes by W. S. Parrott, all lend their beauties to the general scene of rare splendor. The Washington Guard Band, under Bray, and Prof. Schwabe on the piano still charm the visitors with splendid music. The programme for this evening is as follows, and it would be superfluous for us to tell a Portland audience that it will be scientifically and charmingly executed.

Serenade—"Open the Lattice."
Quickstep—"Alexandra."
Polka—"Soldiers."
Waltz—"Lenora."
March—"Crown Prince."
Galop—"Trapeze."
Schottische—"Annie."
Quickstep—"Bois Boudrant."
Nocturne—"Evening Breezes."
Finale—"Adieu."

As the exhibition will close this evening, all who have not visited it hitherto should be sure to attend. The sights will fully repay the time and money consumed in viewing this greatest display of the rare, the costly, the beautiful and the useful ever presented to the people of the state. We say, go, not as a matter of form, but because we believe that the fair is worthy of public patronage.

To ARRIVE.—The first invoice of Burdett Organs consigned to Albert Bartsch, and several Steinway Squares will arrive in a few days. The demand for these instruments is quite large.

Do not shiver and shake while there is an opportunity to purchase a first-class stove. The article can be found at J. R. Brigham's.

The only cloak house in the city is Harris' Emporium of Fashion.

Overcoats and winter apparel in profusion at Fishel & Roberts'.

REMOVAL.—Edwards & Birmingham have removed their stock of furniture to the spacious warerooms over their former place of business in Centennial block, and are opening out a splendid assortment of furniture which they offer at very low prices. Call and be convinced.

The excellent photo work that Davidson Brothers are turning out proves that while they have much the lowest prices, they do not intend the quality of their pictures to be excelled. They make cards for $1 50, and cabinets for $3 per dozen.

Just received Mme. Demorest's reliable patterns for Fall. Send stamp for catalogue to Mrs. Chas. Tichnor, corner First and Yamhill Sts., Portland, Oregon. The Portfolios have not yet arrived. Country customers will please take notice.

THE GEM, ASTORIA.—Connected with Peter Wilhelm's Astoria, is a Ship Masters' Reading Room, where the latest shipping papers are on file. Also, Homeward and Outward Bound List. Also, Agent for Geo. W. Wendlen's Steam Tugs and Lighters. Telegraph Office next door.

INTERESTING TO LADIES.—Dickey's "Creme de Lis" has now been before the public of ten years, during which time this beautiful preparation has met with the highest approval at the hands of the fair sex—being, as all who have used it will verify, the only perfect preparation of its kind. Every ingredient entering the composition of Dickey's "Creme de Lis" is subjected to the most rigid test of modern chemistry, to insure the uniformity and purity of its combination, and neither time nor expense have been spared to make it perfect—it being well known the public will appreciate and support a truly meritorious article. Several new beautifiers under various names, have lately started into existence, but Dickey's "Creme de Lis" has no competition in merit. Sold by all druggists.

MILITARY NOTES.

Upon the recommendation of the chief paymaster of the department, the following assignment of paymasters for payment of troops to include muster of October 31, 1878, is made: Major William M. Maynadier, to pay at Fort Colville, W. T., Camp Coeur d'Alene, Fort Lapwai and Camp Howard, I. T., and Fort Walla Walla, W. T. Major John B. Sanford, to pay at Fort Boise, I. T., Camp Harney, Oregon, and other troops stationed south and southwest of Walla Walla.

First Lieut. Frazier A. Boutelle, 1st cavalry, having reported at these headquarters, pursuant to instructions of the 30th ult., will proceed without delay to San Francisco, Cal.,—reporting on arrival to the assistant adjutant general, military division of the Pacific.

The following decision of the third auditor of the treasury, in regard to the settlement of claims for property lost while in the military service of the United States, is published for the information of all concerned:

"Claims for compensation for loss of property while in the service of the United States, by contract, are adjusted and settled under section 3483 of the revised statutes, (section 2, act March 3, 1849), by the accounting officers of the treasury."

Accordingly, claimants should prepare their claims in the usual manner, supported by affidavits of themselves and others cognizant of the facts connected with the loss, and the certificates of the officers having knowledge thereof, and forward them through 1st Lieut. Edward H. E. Eberle, 21st infantry, disbursing quartermaster, Bannack expedition, Fort Vancouver, W. T., for the action of the accounting officers of the treasury.

JUSTICE TO CAPT. BAUGHMAN.

PORT AND, Oct. 28, 1878.

TO THE EDITOR OF THE OREGONIAN:

Since the unfortunate affair upon the steamer *Spokane*, on the Upper Columbia, which resulted in the killing of Patrick Whalen by Capt. E. W. Baughman, it almost every instance that I have heard parties in conversation, or conversed with persons in relation to the matter, they have invariably reverted to another unfortunate occurrence, that happened on board the steamer [illegible] while lying at Lewiston, in the year 1862, which resulted in the killing of "Dan," the watchman, by Capt. Baughman. Having been present, and one of the parties in the melee, and knowing all the facts, I deem it my duty to give them as they occurred, that all may judge whether Capt. Baughman was to blame, in that affair, or not.

In 1862, there was scarcely a house in the town of Lewiston, and at the earnest solicitation of several ladies and gentlemen, Capt. Baughman occasionally gave his consent to have a dancing party on board of the *Benton*. About two weeks previous to the time that Dan was killed, during one of these parties, a dozen or more roughs came on board, and we came very near having serious trouble before we got them out of the saloon and off the boat. In order to prevent trouble Captain B. told me to put one of the deckhands on watch with Dan to prevent a repetition of our expeditions at the last party. I ordered James Brady, one of the best and strongest men on the boat, to assist the watchman in guarding the gangway that night. Everything went well until between 10 and 11 o'clock, when, upon hearing loud and boisterous talking, I went on to the "Texas" and there, standing at the bar, I saw Dan, James Brady and Barney (another deck hand) taking a drink. I told Dan that that was not the place for them, and told him to go down stairs and attend to his duty. After considerable talk they went down stairs. I then told the barkeeper not to give them any more drink and went back into the cabin. I was there scarcely 20 minutes when loud talking forward again attracted my attention, and upon going out found the watchman, and two men standing in front of the bar. I ordered the watchman to go down to his post, which he refused to do. I immediately returned to the cabin, and informed the captain how matters stood forward. He came out with me, and walking up to Dan, told him to go down stairs, I at same time telling the two men to go on the lower deck. After some talk we all went below and after consulting the captain I told Jim and Barney to turn in, that we did not want them on deck; whereupon James Brady tore his hat off his head and using harsh words threw it on the deck, starting for the captain bar rack, alongside the stairway; "Dan" starting the same instant for a captain bar leaning against a spar near the gangway, used to breast the boat off. Capt. B. seeing his intention, caught the bar first and struck him one blow which felled him to the deck, and turning to Barney, who had an axe in his hands, ordered him to drop it and go turn in, which he did instanter. Brady secured a bar from the rack before I could prevent him, and as he raised it to strike me he hit the deck above, which warded off the blow, so that as the bar descended toward my head I grabbed it with both hands, wrenching it from him and struck him a glancing blow, which felled him, but he was able to stand in a few moments. In the meantime Capt. B. had ordered some one to go for a doctor and some water, and was trying to revive Dan, remarking, "My God! I am afraid I have killed him." Dan remained in an unconscious state several hours, during which everything that could be was done to save his life. At 9 o'clock the next day Capt. Baughman stood a preliminary examination, James Brady and Barney both testifying in his favor, and the court, after examining a number of witnesses, acquitted him. It is not my intention or wish to shield or defend Captain Baughman if he is guilty of murder or willful manslaughter in the killing of P. Whalen, but to state the facts of the former case as I recollect them that those who are continually referring to the affair may not do him injustice.

DR. MINTIE'S NEPHRETICUM

Works wonders. In all cases of Dropsy, Bright's Disease, Kidney, Bladder and Urinary Complaints, or Retention of Urine, are cured by the Nephreticum. Female Weakness, Gravel, Diabetes, pain in the back, side and loin are cured, when all other medicines have failed.

See what the druggists of Portland and San Francisco say about Dr. Mintie's Nephreticum and English Dandelion Pills.

We have sold a large amount of Dr. Mintie's medicine, the English Dandelion Pills; also the famed Nephreticum, and in all cases highly recommended. John A. Childs, druggist, Second street, Portland, Oregon; C. H. Woodard & Co., Druggists, cor. First and Alder, Portland, Oregon; Messrs. Abrams & Carroll, Druggists, No. 3 and 5 Front, San Francisco. "We regard Nephreticum as the *best* Kidney and Bladder remedy before the *Public*." All Druggists keep *them*.

For all derangements of the Liver, Use Dr. Mintie's English Dandelion Pills.

For Biliousness and Dyspepsia, Use Dr. Mintie's English Dandelion Pills.

For Fever and Ague, Use Dr. Mintie's English Dandelion Pills.

Every family should not fail to keep the Dandelion Pills on hand.

Dr. Mintie's Remedies will not "Cure all Complaints," but will give immediate relief and perfect a cure in all cases, if taken according to direction, which they are recommended for.

DR. A. E. MINTIE & CO.—Gents: I volunteer to say your English Dandelion Pills equal and even surpass all you claim "from my experience in their use." Fancy they have no equal for Dyspepsia and Liver troubles. J. A. STROWBRIDGE,
First street, Leather Merchant.
Portland, Sept. 17, 1878.

DR. A. E. MINTIE & CO.—Gents: I have used your famed English Dandelion Pills for torpid liver and dyspepsia, and can freely say they are the best Pills I ever had. I can recommend them as a sure preventive and positive cure in all cases of fever and ague. Yours truly, AMOS PAINBRIDGE, Contractor,
Portland, Oct. 5, 1878.

Ladies! note the display of cloaks and suits at Harris' Emporium of Fashion.

A standard medicine for curing Bright's Disease, Kidney, Bladder and Glandular Diseases is HUNT'S REMEDY. Female Weakness, Pain in the Side, Back and Loins, Gravel, Diabetes, Intemperance, Excesses and Prostration of the Nervous System, is cured by HUNT'S REMEDY. All Diseases of the Kidneys, Bladder and Urinary Organs are cured by HUNT'S REMEDY.

An Undeniable Truth.

You deserve to suffer, and if you lead a miserable, unsatisfactory life in this beautiful world, it is entirely your own fault, and there is only one excuse for you—your unreasonable prejudice and scepticism, which has killed thousands. Personal knowledge and common sense reasoning will soon show you that Green's August Flower will cure you of Liver Complaint, of Dyspepsia, with all its miserable effects, such as sick headache, palpitation of the heart sour stomach, habitual costiveness, dizziness of head, nervous prostration, low spirits, etc. Its sales now reach every town and village in Eastern Continent and not a Druggist but will tell you of its wonderful cures. You can buy a sample bottle for ten cents. Three doses will relieve you.

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland regarding medical treatment of the proper kind who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make Be sure and ask for DR PADLEY BRENAN'S *Medical Lecturer* and read his sign on his door
